Overall Health Status Rank

77

Part of **Stephens County** is designated as a medically underserved area.

COUNTY BENCHMARK KEY: A Comprehensive Guide to Understanding Data

Base data for each indicator presents a rate for a previous three-year period when data comparable to that measured currently was available. Each item specifies the base rate and period in which it was collected.

The bar chart shows the percent change between the base data and the recent data for each indicator. If the bar goes to the left of center, the county rate has worsened. If the bar goes to the right of center, the county rate has improved. The wider bar behind the bar chart is the state rate for that indicator and allows you to compare the county with the state as a whole.

Recent Data for each indicator presents a rate for the most recent three years. Each item specifies the recent rate and period in which it was collected.

Oklahoma's methodology for counting high school dropouts has changed preventing comparisons over time. Trend data will be available on future Factbooks.

The county is ranked on each indicator to allow you to compare rates for the county with other counties. 1 is the best ranking; 77 is the worst ranking.

COUNTY BENCHMARK KEY: A Comprehensive Guide to Understanding Data

Medical Facilities catalog the bricks and mortar of the county health system, noting which of the seven resources are physically located in the county. See Data tables for detailed explanation.

County Health Indicators

Health Resources

The following medical facilities are physically located within Adair County

YES	Hospital serving general population
NO	Hospital specializing in care for specific population, procedure or condition
YES	County or City/County Health Department
NO	Non-health dept. community-based clinic receiving selected federal funding
NO	Community Health Center
YES	Clinic or health center serving native population
YES	Community Mental Health Center
