Lantern slide from the U.S. Soil Conservation Service Collection, #1993-067, Special Collections and University Archives, Oklahoma State University Libraries

## Oklahoma Archives Month

Explore Oklahoma's  
Historical Resources

**October 2012**

During the Dust Bowl, Oklahoma State University worked closely with the U.S. Soil Conservation Service to address the environmental challenges of the western plains. Researchers examined the causes for soil erosion and made recommendations for more responsible care and stewardship of the land. The challenges they confronted and the changes they proposed are documented in a set of over 450 glass lantern slides donated to Oklahoma State University two decades ago.
