

Through literacy
you can begin to see
the universe.

Grace Slick

He that loves reading
has everything within
his reach.

William Godwin

Reading changed
forever the course of
my life.

Malcolm X

There is no substitute
for books
in the life of a child.

Mary Ellen Chase

How to use Bookmark Templates

Place
your
Picture
at this
location

1. Open the bookmark template ("templates.pdf") in a compatible image editing or layout program, such as Photoshop or Photoshop Elements.

(Word processing programs, such as MS Word, will be difficult or impossible to use for this task.)

2. You may see a dialog box or window labeled "Import PDF." Inside this window, under an

Options category, you may have an opportunity to specify the PDF's resolution; *you will always want to choose 300dpi for printing.*

3. After opening the template, insert or place your pictures and logos in the designated spaces.

4. Save the file, and then print.

5. Cut on dotted lines.
